

SDU's principles for smoking and tobacco use

The overall principle at SDU is that the use of tobacco products must not negatively affect other people.

SDU therefore decided following:

1. The use of tobacco products (smoking tobacco and vaping) is not permitted indoors on SDU's premises.
 - a. Smoking and vaping are restricted to the outdoor smoking sheds.
 - b. Waste from outdoor smoking and tobacco use must be placed in ashtrays or rubbish bins.
2. In addition to the ban on using tobacco products indoors, special rules apply to SDU's campuses in Esbjerg, Kolding, Sønderborg and Slagelse, which are physically connected to other institutions. In the shared study and work environments, there are standardised rules for the use of tobacco by students and employees at SDU's campuses and partner institutions. Therefore, SDU follows the same rules for smoking and tobacco use as the partner institutions, i.e.:
 - a. At Campus Esbjerg and Campus Kolding, the same rules apply as at UC Syd. This means that all tobacco products are banned indoors and outdoors (nicotine gum is allowed).
 - b. At Campus Sønderborg, SDU's rules apply, as Alsion does not have rules regarding tobacco use. This means that it is not permitted to use tobacco products indoors.
 - c. Campus Slagelse follows the same rules as Absalon. This means that all tobacco products are banned indoors and outdoors (nicotine gum is allowed).
3. As an employer, SDU offers and actively promotes quit-smoking courses for employees.
 - a. Information about smoking cessation courses offered by SDU and the municipalities is available in the smoking shelters.
